

SEEKING EPOXY FLOORING LABORER

Strong and steady success has meant we're looking for a new person to join the team – as a full-time person. As a Brisbane (Banyo) based commercial business who has been operating for a number of years, we're doing well – mostly because we do a great job and really look after our customers. We also believe in looking after our team well too!

So, when we say we're looking for someone; we're looking for someone with awesome attitude and a strong care factor. This position is available now; however, we are prepared to wait (a short time) for the right person. We've got a lot of work scheduled in, so we can't wait too long.

What you'll be doing

- Mixing epoxy resin
- Diamond grinding concrete
- General onsite cleaning
- Installing epoxy coatings.

What we're looking for from you

- Reliability
- Work great as a team
- Able to do physical work for a full day
- Open class manual driver's license – this is a MUST

What we'll give you

- A fair days pay for a fair days work. We'll talk more about what you're seeking once we determine your skills, abilities and experience.
- Security of employment; we do things right and are a strong and resilient business
- Training; whilst epoxy (or similar) experience would be a plus, it's not essential
- The sense of belonging to a great team; we value and appreciate everyone's contribution
- Guidance around safety; we are big on this as we want to keep our team safe
- The chance to use new and larger equipment
- The opportunity for advancement in the future – especially as we continue to expand.

If this interests you, please send your resume to admin@qepoxy.com.au and be sure to include three work referees (their names and phone numbers). Thanks.
